

Product Data Sheet

Technical Data

Article number	15016 Carbon-Gusset	
Raw material	97% Carbon fibre (HTS40 F13) 3% PES (76 dtex)	
Construction	Knitted fabric with 3 twisted cords in the core	
Packaging	Roll of 25 m	
Weight	24.6 g/m	
Measures	Width: 13 mm	Thickness: 5 mm

Description

The gusset is composed of a core with 3 cords in a warp knitted cover.
The twisted cords in the core with different diameters fit exactly to an angle connection.
The corner reinforcement is placed into the perform; it can also be laminated on the prefinished component.
The continuous load transition offers an improved corner reinforcement of the component.
